History of the GNSSN Annual Report

In line with the GNSSN Strategic Plan (2021), one of the actions for the GNSSN and IAEA Secretariat is to:

“Draft and publish annual report on GNSSN activities and key findings.”

- The Secretariat is requested to prepare an annual report on the implementation activities of GNSSN and its associated networks. This annual report is used to highlight the progress and accomplishments in relation to the planned activities as well as lessons learned during implementation, potential risks and any specific planned actions.
- Till date, 3 GNSSN Annual Reports have been published for the period 2015-2017.
- Since 2018, the GNSSN Annual Report publication was on hold.
Next publication of the GNSSN Annual Report should cover the period 2018-2021.

Template of GNSSN Annual Report

- The report is comprised of five chapters:
 - Introduction;
 - Governance and Strategic Management;
 - Accomplishments;
 - Progress Overview; and
 - Lessons learned and proposed actions.
- Section “Progress Overview” reports on the progress of GNSSN and its associated networks based on Assessment Rating Scales, which in turn are linked to Strategic Goals of GNSSN. - Needs to be reviewed in line with new GNSSN Strategic Plan for future GNSSN Annual Reports
