Federal Environmental, Industrial and Nuclear Supervision Service of Russia (Rostekhnadzor)

- Answers to item 8+9 (Changes and Suggestions to improve the web-site):
 - ⑩ 119 respondents (71%) suggest to make a Russian version of the site or to provide an option “national language/ to choose language”
 - ⑩ 2 respondents suggest to create a user-friendly library of international documents
 - ⑩ 4 respondents suggest to add links to the sites of regulators not having their own sectors in RegNet

Federal Environmental, Industrial and Nuclear Supervision Service of Russia (Rostekhnadzor)

- **Conclusions:**

- ⑩ Most respondents did not know about GNSSN or learnt about it from Rostekhnadzor's questionnaire, therefore it seems reasonable to spread information about GNSSN, its benefits and usability in a more active and effective manner
- ⑩ Most respondents using the GNSSN learnt about it at various IAEA international meetings /conferences/ workshops, thus it is expedient to provide more information materials on GNSSN during such international events at the working level

Federal Environmental, Industrial and Nuclear Supervision Service of Russia (Rostekhnadzor)

- Conclusions (2):

- ⑩ Most respondents suggest to add a Russian translation of the GNSSN site. Being aware that this is an unlikely task for today we could consider the possibility of providing the information in different national languages as a possible option for future
