

13th GNSSN SC Meeting draft recommendations

Safety and Security Interface

Commend work on the Safety and Security Interface and look forward to report on outcomes and information about next steps at next meeting

International Legal Instruments and the way forward

Promotion of e-learning module on national legal framework for Newcomers on GNSSN homepage and Regional Network homepages

To investigate the possibility of translating the revised CNS Brochure and other key documents on the international legal instruments into all IAEA official languages

Include liability instrument information in the mapping tool and include links to OLA reference and supporting documents in agreement with OLA

Tool to be published to GNSSN by end of 2018

Feedback on the Model Workshop on Capacity Building and Nuclear Safety Knowledge Management

The finalized CB TECDOC be circulated to SC members informally for feedback prior to next meeting. SC members will review and decide at the next meeting if it is mature enough or would benefit from a TM.

The RegNet Platform

Commend RegNet project and recommend it be offered to TSOs with Regulatory Body agreement

Recommend survey to establish statistic on use of RegNet

Recommend contacting regulators directly for feedback on Reg Net and encourage the Secretariat to accelerate the process of enhancement

Leadership School

Take note of 2019 plans and encourage the Secretariat to continue with activities

Expand target audience to middle management and perhaps experienced managers and reflect this in selection criteria for next year's schools, taking note that a School in Morocco has been approved by the Moroccan government for 2019

Encourage promotion by GNSSN and promotion by SC to their MS on the School. Recommend and encourage establishment of the Schools within the TC Programme for and translation into all official IAEA languages for sustainability
