(held in hybrid format)
28–29 July 2022**

KUNJEER Sameer

Networks Management and Partnership Section, NSOC

&

DIXIT Aabha

Communication Advisor (NS)

GNSSN News Publication

In line with the GNSSN Strategic Plan (2021), one of the actions for the GNSSN Secretariat is to:

“Publish, translate and advertise network activities and publications”

- GNSSN News disseminated periodically caters to promoting the following among a wider global community (registered GNSSN users ~ 3000+)
 - Associated Network Activities
 - Relevant activities from Department of Nuclear Safety and Security
 - IAEA Vacancy Notices
 - IAEA Publications
- GNSSN News is disseminated since 2021 through an IAEA IT service, namely MailChimp.
- Respective Technical Divisions are responsible for formulation of content
- NS Communication Team is responsible for the validation and publishing of content.

GNSSN News Publication – Future Considerations

- Associated networks of GNSSN can consider to share their main achievements and key results from their activities to the GNSSN community, via the GNSSN News publication.
- IAEA can consider to share new publications and updates on existing publication.
- International Organizations (UNSCEAR, OECD-NEA) can also consider to promote GNSSN major activities and achievements through their communication channels and vice versa.
- NS Communication Team can consider to promote GNSSN activities through social media, exclusively created for GNSSN.

New IAEA Publication Available Now!

The IAEA has published the new Safety Report "Managing Nuclear Safety Knowledge: National Approaches and Experience" (Safety Reports Series No.105).
