Outreach Activities
GNSSN and its associated networks

(GNSSN news editions; GNSSN institutional presentation; GNSSN IT platform)
Disseminate information on announcement of new GNSSN and its associated network activities as well as key achievements and results on a periodic basis. GNSSN news edition in a new layout and structure is been developed by IAEA Secretariat and 3000+ registered users are the target audience.
Disseminated to subscribers Monthly. This would also further facilitate promotion of GNSSN activities to a wider audience.
Brochures of Regional Networks
Updated and distributed during 66GC
GNSSN Institutional Presentation

On process to create the GNSSN Institutional Presentation which can be used by IAEA Officers and GNSSN and associated network representatives to enhance visibility of the work done across all networks.

- Ensure high standards of accountability, probity and financial control

Financial resources

Human network

- global, regional levels, support web platform.

legal framework

- assisting Member States to meet their national responsibilities as well as their international obligations

“a platform for the sharing of information among experts in order to achieve a higher level of safety and security at nuclear facilities around the world.”

GNSSN is a growing collection of internationally accessible networks and information resources, designed to ensure that critical knowledge, experience, and lessons learned about safety and security are exchanged as broadly as they can be.
• Release of the restructured GNSSN website (public part) in Nov 2022.

• Technological upgrade of GNSSN and its sub-sites to new SharePoint technologies completed in June 2022.

• Restructuring of the protected area of the GNSSN website in progress; to be completed in August 2023.

• Restructuring of the regional network and thematic network websites’ to be considered in 2023 – to ensure consistency with visual layout.

• Drafting of IT Governance Plan for content management of GNSSN and its associate networks’ websites.
