Webinar

Activities of the SMR Regulators’ Forum: Since Its Creation and Looking Ahead

Presenters:

Anna Bradford – Forum Chair, Director of Division of New and Renewed Licenses, USNRC

Marcel de Vos – Forum Steering Committee Member, Licensing Leader, CNSC

Wednesday 29 July 2020
13:00 – 14:00 Vienna Time

The SMR Regulators’ Forum was created to share regulatory knowledge and experience among members and other stakeholders. Its purpose is to identify challenges that may emerge from regulating SMRs in order to help enhance safety, security, and efficiency in regulation, including licensing. The Forum’s outputs will inform member states’ regulatory bodies of any potential changes needed to their requirements and regulatory practices. This webinar will present the results from topics which the forum has already covered as well as share its plans for the next phase.
