# LIST OF NATIONAL FOCAL POINTS FOR DENIAL OF SHIPMENT OF RADIOACTIVE MATERIAL

The General Conference resolution GC(67)/RES/7 para 94 of September 2023 [1] "calls upon Member States to facilitate the transport of radioactive material, and to identify, if they have not done so, a national focal point (NFP) on denials of shipment of radioactive materials to achieve a satisfactory and timely resolution of this issue".

In this connection, the IAEA Secretariat issued a Note Verbale on 16 January 2024 stating "*all Member States are kindly requested to nominate, confirm or update the IAEA list*" of appointed NFPs, which follows here below. If more than one national focal point is designated by a State, the State should indicate which national focal point should be contacted under which circumstances.

Additions and amendments to this list of national focal points should be sent to IAEA through the normal official channels, marked for the attention of Ms Shazia Fayyaz (contact details are given below).

Comments or questions can be sent to:
