

Rabat, Morocco (9 - 13 October 2023)

The fourth regional SMR RF workshop on regulatory challenges in SMRs, for the Africa region, was held in **Rabat, Morocco**, from **9 to 13 October 2023**, with the participation of **17 representatives from nine IAEA Member States** (Burkina-Faso, Chad, Comoros, Cote D'Ivoire, Madagascar, Mali, Mauritania, Morocco and Rwanda) and three invited lecturers from the SMR RF. The workshop was hosted by the Moroccan Agency for Nuclear and Radiological Safety and Security (AMSSNuR) and included a visit to the TRIGA Mark II Research Reactor facility. This regional workshop was the first fully conducted in the French language.
