

Title: Introduction to SARIS – IRRS UK follow-up

Location: Austria, Vienna

Dates of Mission: 2013-03-21 (1 day)

Objectives:

In preparation for the IRRS follow-up mission in the United Kingdom in October 2013, a one day training session on the latest SARIS tool was conducted by the IAEA, outlining the newest additions in questions and technical developments of the tool. Three participants from the British Office for Nuclear Regulation (ONR) participated.

Duties performed:

Presentation and outline on SARIS with subsequent hands-on training.

Conclusions:

The participants found the training to be useful to embark on their self-assessment in preparation for the IRRS follow-up mission.
