

**Title:** National Workshop on the Specific Safety Guide No 16 “Establishing the Safety Infrastructure for a Nuclear Power Programme” (SSG-16) and IRIS

**Location:** Ankara, Turkey

**Dates of Mission:** 2013-02-17 to 2013-02-20

**Objectives:**

To introduce the SSG-16 IAEA Safety Guide, the SSG-16 self-assessment methodology and the IRIS (Integrated Review of Infrastructure for Safety) software.

**Duties performed:**

The national workshop consisted of expert presentations as well as the conduct of a self-assessment exercise based on a fictitious case study realized by the participants.

**Conclusions:**

The national workshop achieved its objectives and purpose by successfully introducing the IAEA IRIS self-assessment methodology and tool to the participants.
