

Title: IAEA/ANL Regional Workshop on Establishing a Nuclear Safety Infrastructure for a National Nuclear Power Programme

Location: Vienna, Austria

Dates of Mission: 29 November – 09 December, 2010

Objective:

The workshop provided participants with a general introduction to and overview of establishing a safety infrastructure based on SSG-16 (then DS 424).

Conclusions:

The workshop met its objective.

The event was carried out with funding by the European Union
