

Title: National workshop on Self-Assessment of the national regulatory infrastructure for safety using the IAEA Self-Assessment Methodology and Tools in preparation for an Integrated Regulatory Review Service (IRRS)

Location: Jakarta, Indonesia

Dates of Mission: 28 January - 01 February, 2013

Objectives: The purpose of the travel was to conduct a national workshop on the IAEA self-assessment methodology and tools to regulatory staff of the Badan Pengawas Tenaga Nuklir (BAPETEN), the Nuclear Energy Regulatory Agency in Indonesia.

Conclusions:

The workshop provided the regulatory staff of BAPETEN with the skills, understanding and practical knowledge necessary to conduct a self-assessment of the national regulatory infrastructure for safety using the IAEA methodology and tools in preparation for the upcoming IRRS mission to Indonesia.

The event was carried out with funding by the European Union
