

Title: Workshop and training on safety culture assessment and oversight for the regulatory body

Location: Islamabad, Pakistan

Dates of Mission: 27 May -31 May, 2013

Purpose:

The purpose of the travel was to conduct training on safety culture self-assessment for a regulatory body and to perform a train-the-trainer training on safety culture oversight.

Conclusions:

The workshop and the training were successfully conducted. PNRA, the Pakistan regulatory body, valued the training course and were well prepared to start the self-assessment. The course evaluation showed clearly the recognition of the IAEA contribution.

The event was carried out with funding by the European Union
