

Title: Workshop on the SSG-16 Self-Assessment Methodology for the Arabic Network of Nuclear Regulators (ANNuR)

Location: Tunis, Tunisia

Dates of Mission: 16 – 19 July, 2012

Objective:

To provide assistance and guidance to ANNuR countries for their safety infrastructure self-assessment against Specific Safety Guide (SSG-16) actions and to introduce the self-assessment methodology specifically developed for this purpose.

Conclusions:

This was the first time that a workshop on self-assessment against SSG 16 was offered at a regional level. The workshop met its objective.

The event was carried out with funding by the European Union
